Subject: Wales – Ref IRAS 216147 – Study-wide Governance Checks Complete
Attachments: 216147 Documents reviewed 19Apr2018.pdf

Dear Dr Collins,

Re: ANIMATE (IRAS 216147) – Study-wide Governance Checks Complete for Wales

I am pleased to confirm that all the study-wide (global) governance checks for Wales have been completed for your study, however this does not constitute permission to proceed at research sites.

The study-wide governance review was satisfied using the Research Protocol v1.1, 21 Feb 2018 that received REC favourable opinion on 10 Apr 2018 as supplied by the HRA in England. Please find attached a list of study-wide documents that have been approved.

Please provide a Statement of Activities (Word format) and Schedule of Events (Excel format) for each NHS research site type in Wales in order that NHS organisations may arrange and “confirm capacity and capability” to deliver the study.

Alternatively, if you have already started the completion of SSI documentation these will be accepted until 10 June 2018.

Documentation should include:

- SSI Form PDF version
- SSI Form XML file
- SSI checklist (and all documents listed on the checklist)

Please note that you cannot commence the study at a particular site until you have received written confirmation of NHS Research Permission for that site.

All amendments made during your study, after NHS research permission has been gained, should be notified to your lead nation co-ordinating centre (Health Research Authority in England). Please see <https://www.myresearchproject.org.uk/help/hlpamendmentsresearch.aspx#Submitting-your-amendment> for further information.

Please contact research-permissions@wales.nhs.uk should you require any further information or assistance.

Please note the information and contact details contained in the link below, with regards to the implementation of the Interim step in Wales to support 4 Nations implementation of the Local Information Pack. This interim step takes effect from 16 April 2018.
