Director: Professor Allan Hackshaw

18/10/2022

Dear ANIMATE sites,

Trial Title: ANIMATE, A phase II study of nivolumab monotherapy in patients with relapsed/refractory Hodgkin lymphoma, fit for autologous stem cell transplant, who fail to reach complete metabolic remission after first- or second-line salvage therapy

Sponsor: University College London

Chief Investigator: Prof Graham Collins

IRAS ID: 216147

EUDRACT no: 2017-002544-32

We have now reached our target recruitment for ANIMATE as of 11/10/2022. Thank you for your continued support for the ANIMATE trial to date – we couldn't have done this without contributions from all our research sites.

Please do not approach any further patients for the trial as we will not be accepting any more trial registrations.

We are aware of the patients below who are registered awaiting confirmation of eligibility. Screening may continue for these patients only:

- ANM-075 at Beatson WOSCC
- ANM-078 at Leicester Royal Infirmary

Our data manager will be in touch regularly to chase any outstanding CRFs and queries, and we will be in touch to close pharmacies as and when nivolumab treatment has finished at each site.

Please ensure that follow up as per protocol continues for any patients recruited into the trial. The end of the trial will be declared when the last patient completes three years of follow up.

Also, can I ask that this letter is forwarded to the appropriate R&D and pharmacy departments, within your site.

Please send an acknowledgment for the receipt of this letter to ctc.animate@ucl.ac.uk, and don't hesitate to get in touch with any questions.

Yours sincerely,
