

UKALL14

A randomised trial for adults with newly diagnosed acute lymphoblastic leukaemia

Since the Easter Newsletter we have been hard at work activating new sites and randomising patients. We now have 57 activated sites and 170 patients. WELL DONE EVERYONE!!

On behalf of Dr Adele Fielding (CI) and the Trial Management Group, I would just like to say a huge thank you to everyone working on UKALL14. This incredibly important trial has been open for almost 2 years now and is recruiting slightly ahead schedule (which is fantastic)! Keep up the good work!

I hope you all have a very Merry Christmas and a Happy New Year!

Simon Purnell - UKALL14 Trial Coordinator

Below is the UKALL14 Accrual Graph showing the progress the Trial has made since opening in December 2010

Season's Greetings from the UKALL14 Data Managers

It has been a very busy year for the UKALL14 trial and we would like to say a huge thank you to everyone for your hard work.

As you know, we have been monitoring Phase 1 Induction very closely since the changes to the induction treatment regimen in April this year and we have been really impressed by your hard work and co-operation in filling out the extra questionnaire and returning Phase 1 Induction information to us quickly and willingly. This has been a great help. We have also pushed hard this year to clear a backlog of overdue CRFs and have, once again, been delighted by your response and co-operation. Please keep up the good work!

Don't forget - if you have any enquiries about or difficulties with UKALL14 data management, please give us a call or drop us an email. We will do our best to help.

We wish you all a very Happy Christmas. Enjoy the holidays!
Lynda and Neera
