**Subject:** UKALL14 SUSAR line listing for period: 10 Jun - 10 Sep 2014

**Importance:** High

Dear UKALL14 Investigators

As trial sponsor we are required to provide quarterly updates to PIs regarding the occurrence of SUSARs within trials.

**There has been one reported SUSARs reported to UCL CTC for the UKALL14 trial for the following time period:**

- **10 June 2014 – 10 Sept 2014** : 1 reported SUSAR.

Site	Patient ID (e.g 14-1-001)	SAE ID (e.g 14-1-001-01-2)	Randomisation Arm	Name of Event	Status
Torbay	14-1-088	14-1-088-03	B2	Hyponatremia, skin infection and hypoxia	Resolved

**Please note; subsequently the SUSAR was downgraded to as SAE when the reporting investigator confirmed that all 3 events were part of one over-arching event of Sepsis.**

Please contact me if you have any questions.

Kind regards

*EMMA*

Mrs Emma Lawrie
